

REOPENING GUIDELINES – SUNDAY, JULY 19, 2020

REGISTRATION

- You have register each child being dropped off in kids ministry via the PCC website or the Church Center App (let Crystal know if you cannot register). Kids ministry will be open to 6 weeks through 5th grade.
- To begin, our class sizes will be:
 - Babies/Crawlers/Walkers 5
 - Toddlers&Twos 8
 - Preschool (ages 3-5) 10
 - K-2nd grade 12
 - 3rd-5th grade 12
- If you do arrive and have not registered OR we reach capacity in the classrooms, you will be asked to enjoy the service outside where a speaker will be run so that you can still hear the worship and sermon.
- Registration will begin on Monday, July 13th at 10:00am and will end on Sunday, July 19th at 9:00am.
 - This will be how it works prior to each Sunday service for the next few weeks.

CHECK IN / CLASSROOM DROP OFF

- Check in is mandatory for all adults and kids.
- Stop by the breezeway to check your kids in and get their security tags.
- We ask that only ONE parent/guardian follow the one way directional signs to drop off your children in their individual classrooms.
 - We will not be having large group worship at this time, however, worship will be done inside each classroom.
- At your child's classroom door, he/she will have his temperature checked with a contactless thermometer and given hand sanitizer.
 - Please prepare them for this, especially our younger ones so that it doesn't cause fear or anxiety for them.
 - If temp is 100.4 or higher, we ask that you take your child and his/her siblings home for the day and try again the following Sunday.

DURING KIDS CLASSES

- We will encourage the older ones to socially distance as much as possible
- All toys and any items that must be shared in classes will be disinfected prior to use each week

PICK UP

- Again, we ask that only ONE parent/guardian follows the one way directional signs to pick up your children from kids ministry.
- Please pick up directly after the sermon and feel free to socialize/fellowship in the parking lot or on the grassy area after service.

ONLINE MATERIALS

- Our weekly Gospel Project lessons will continue to be posted online in an easy to use format at home

WELLNESS POLICY

- It is our strongest desire to provide a fun, yet safe and healthy environment for your kids to enjoy worship and learning more about Jesus. Therefore, the following policy is in our handbook but we've included it here for your review.
- Should any child show any symptoms of not being well at drop off or during class, it is at the servant leader's discretion and our responsibility to have the child picked up by his/her parent.
- In order to try to protect individuals from infectious diseases, Providence City Church follows the following guidelines.
- As representatives of Christ, we commit ourselves to obey Jesus' command to love all persons and welcome all persons into the church. However, we also need to take reasonable care not to jeopardize the health of others.

Definition

- A communicable disease will be defined as an illness, a departure from health; a particular destructive process in an organism, with a specific cause and characteristic symptoms that may be transmitted to others with the threat of jeopardy to their health. This may range from a common cold to the HIV/AIDS/Coronavirus.

Policy and Procedure

- No child will be allowed into the nursery or other children's program when he or she has any of the following symptoms:
 - ♣ Acute cold
 - ♣ Fever (within 24 hours) or temp registers 100.4 or higher
 - ♣ Sneezing
 - ♣ Coughing
 - ♣ Vomiting (within 72 hours)
 - ♣ Diarrhea (within 72 hours)
 - ♣ Sore throat
 - ♣ Earache
 - ♣ Runny nose
 - ♣ Red or discharging eyes
 - ♣ Skin rash
 - ♣ Chills

- In addition, anyone who has a known communicable disease won't be admitted into activities, programs, or child care where the disease could be communicated to others who aren't infected.

- If a child is admitted to the nursery or children's programs and is later determined to be ill, the parent will be notified to take the child out of the nursery or children's program until the child is well.

- If an individual suspects that a child has an infectious disease, or if it comes to the attention of another individual, the informed person should bring this information to a church staff employee in a confidential manner.

- Children who test positive for HIV and who are toilet trained are welcome to attend kids' services and all church functions, and are encouraged to participate fully. HIV-positive children who lack control over bodily functions, who have open sores or cuts, or who display behavior such as biting, may be screened and temporarily excluded.

- Parents of all children who attend the services will be asked to keep their children at home if they have any contagious illness.

Control Methods

- The church nurseries will follow these precautions in order to keep workers and children as safe as possible from any unknown infection:
 1. Junior workers (under age 16) will change diapers only under adult supervision.
 2. Adult workers and junior workers will change diapers only while in the same room together. The worker should use a new pair of gloves for each changing.
 3. Unless the medical community finds evidence that a diaper needs to be disposed of in any other manner, used diapers should be placed in bags provided in the trash can and taken to the trash dumpster at the end of the shift.
 4. Nursery toys should be disinfected at the end of each shift. Toys should also be disinfected sooner if mouthed. In addition, all surfaces should be wiped down and disinfected at the end of each shift.
 5. Nursery workers should also practice frequent hand washing, especially when they arrive at the nursery, before serving food, and after diapering a child, wiping his nose, or cleaning up a mess. Be sure to use soap and running water, rub your hands vigorously as you wash them, wash all skin surfaces including wrists and between fingers, rinse hands well, and dry your hands with a single use towel.
 6. Absolutely no medication (including but not limited to diaper rash ointment, baby powder, children's Ibuprofen/Tylenol, etc.) shall be applied or given orally to any child by servant leaders. Should the need arise for any medication to be given, the child's parent must administer.
